

Your FREEDOM of CHOICE for your Health Care is Under Attack

The Medical Board of Australia want to limit the ways your doctor can offer solutions and treat you!

This includes:

- **Vitamin and mineral supplements**
- **Bio-identical Compounded hormones**
- **Treatment for chronic diseases**
- **Treatment for autism and mental issues**
- **Treatment for mould-related illness**
- **Emerging treatments**
- **And many others which require coordination of care.**
- **It also aims to limit research activities in this area**

If you care about doctors and practitioners being able to make you aware of all your options and treat you in the way you want. Go to the following website

www.integrativemedicinefreedomofchoice.com

Go here for information, ideas, actions. Complete the simple form and click 'SEND SUBMISSION' to help stop this insidious attack on your health choices.

Your story is important. Your story will help to help to change the perception of how integrative and complementary medical treatments make a positive difference for patients. To ensure the focus stays on your story, and the difference having the freedom of choice makes, DO NOT MENTION THE NAME OF YOUR DOCTOR, PRACTITIONER OR PRACTICE, or the precise treatment details.

The website will help you develop your story. REMEMBER PASS THIS FLYER ON
